DataPilot AI Analytics Report

Dataset Overview

This report presents a comprehensive analysis of the uploaded dataset. The dataset contains **256** records and **329** features. The objective is to explore statistical properties, detect anomalies, and derive meaningful insights for decision-making.

Statistical Analysis

Lat: The mean value is 19.38, with a minimum of -51.7963 and a maximum of 71.7069. This reflects the central tendency and spread of the dataset.

Long: The mean value is 28.99, with a minimum of -172.1046 and a maximum of 178.065. This reflects the central tendency and spread of the dataset.

1/22/20: The mean value is 0.11, with a minimum of 0.0 and a maximum of 28.0. This reflects the central tendency and spread of the dataset.

1/23/20: The mean value is 0.12, with a minimum of 0.0 and a maximum of 28.0. This reflects the central tendency and spread of the dataset.

1/24/20: The mean value is 0.14, with a minimum of 0.0 and a maximum of 31.0. This reflects the central tendency and spread of the dataset.

1/25/20: The mean value is 0.15, with a minimum of 0.0 and a maximum of 32.0. This reflects the central tendency and spread of the dataset.

1/26/20: The mean value is 0.2, with a minimum of 0.0 and a maximum of 42.0. This reflects the central tendency and spread of the dataset.

1/27/20: The mean value is 0.24, with a minimum of 0.0 and a maximum of 45.0. This reflects the central tendency and spread of the dataset.

1/28/20: The mean value is 0.42, with a minimum of 0.0 and a maximum of 80.0. This reflects the central tendency and spread of the dataset.

1/29/20: The mean value is 0.49, with a minimum of 0.0 and a maximum of 88.0. This reflects the central tendency and spread of the dataset.

1/30/20: The mean value is 0.56, with a minimum of 0.0 and a maximum of 90.0. This reflects the central tendency and spread of the dataset.

1/31/20: The mean value is 0.87, with a minimum of 0.0 and a maximum of 141.0. This reflects the central tendency and spread of the dataset.

2/1/20: The mean value is 1.11, with a minimum of 0.0 and a maximum of 168.0. This reflects the central tendency and spread of the dataset.

2/2/20: The mean value is 1.84, with a minimum of 0.0 and a maximum of 295.0. This reflects the central tendency and spread of the dataset.

2/3/20: The mean value is 2.43, with a minimum of 0.0 and a maximum of 386.0. This reflects the central tendency and spread of the dataset.

2/4/20: The mean value is 3.33, with a minimum of 0.0 and a maximum of 522.0. This reflects the central tendency and spread of the dataset.

2/5/20: The mean value is 4.39, with a minimum of 0.0 and a maximum of 633.0. This reflects the central tendency and spread of the dataset.

2/6/20: The mean value is 5.81, with a minimum of 0.0 and a maximum of 817.0. This reflects the central tendency and spread of the dataset.

2/7/20: The mean value is 7.86, with a minimum of 0.0 and a maximum of 1115.0. This reflects the central tendency and spread of the dataset.

2/8/20: The mean value is 10.22, with a minimum of 0.0 and a maximum of 1439.0. This reflects the central tendency and spread of the dataset.

2/9/20: The mean value is 12.67, with a minimum of 0.0 and a maximum of 1795.0. This reflects the central tendency and spread of the dataset.

2/10/20: The mean value is 15.41, with a minimum of 0.0 and a maximum of 2222.0. This reflects the central tendency and spread of the dataset.

2/11/20: The mean value is 18.29, with a minimum of 0.0 and a maximum of 2639.0. This reflects the central tendency and spread of the dataset.

2/12/20: The mean value is 20.12, with a minimum of 0.0 and a maximum of 2686.0. This reflects the central tendency and spread of the dataset.

2/13/20: The mean value is 24.59, with a minimum of 0.0 and a maximum of 3459.0. This reflects the central tendency and spread of the dataset.

2/14/20: The mean value is 31.48, with a minimum of 0.0 and a maximum of 4774.0. This reflects the central tendency and spread of the dataset.

2/15/20: The mean value is 36.7, with a minimum of 0.0 and a maximum of 5623.0. This reflects the central tendency and spread of the dataset.

2/16/20: The mean value is 42.44, with a minimum of 0.0 and a maximum of 6639.0. This reflects the central tendency and spread of the dataset.

2/17/20: The mean value is 49.15, with a minimum of 0.0 and a maximum of 7862.0. This reflects the central tendency and spread of the dataset.

2/18/20: The mean value is 56.06, with a minimum of 0.0 and a maximum of 9128.0. This reflects the central tendency and spread of the dataset.

2/19/20: The mean value is 62.97, with a minimum of 0.0 and a maximum of 10337.0. This reflects the central tendency and spread of the dataset.

2/20/20: The mean value is 71.0, with a minimum of 0.0 and a maximum of 11788.0. This reflects the central tendency and spread of the dataset.

2/21/20: The mean value is 73.79, with a minimum of 0.0 and a maximum of 11881.0. This reflects the central tendency and spread of the dataset.

2/22/20: The mean value is 89.4, with a minimum of 0.0 and a maximum of 15299.0. This reflects the central tendency and spread of the dataset.

2/23/20: The mean value is 91.38, with a minimum of 0.0 and a maximum of 15343.0. This reflects the central tendency and spread of the dataset.

2/24/20: The mean value is 98.54, with a minimum of 0.0 and a maximum of 16748.0. This reflects the central tendency and spread of the dataset.

2/25/20: The mean value is 109.0, with a minimum of 0.0 and a maximum of 18971.0. This reflects the central tendency and spread of the dataset.

2/26/20: The mean value is 118.69, with a minimum of 0.0 and a maximum of 20969.0. This reflects the central tendency and spread of the dataset.

2/27/20: The mean value is 129.98, with a minimum of 0.0 and a maximum of 23383.0. This reflects the central tendency and spread of the dataset.

2/28/20: The mean value is 143.4, with a minimum of 0.0 and a maximum of 26403.0. This reflects the central tendency and spread of the dataset.

2/29/20: The mean value is 155.39, with a minimum of 0.0 and a maximum of 28993.0. This reflects the central tendency and spread of the dataset.

3/1/20: The mean value is 166.86, with a minimum of 0.0 and a maximum of 31536.0. This reflects the central tendency and spread of the dataset.

3/2/20: The mean value is 178.13, with a minimum of 0.0 and a maximum of 33934.0. This reflects the central tendency and spread of the dataset.

3/3/20: The mean value is 188.39, with a minimum of 0.0 and a maximum of 36208.0. This reflects the central tendency and spread of the dataset.

3/4/20: The mean value is 199.88, with a minimum of 0.0 and a maximum of 38557.0. This reflects the central tendency and spread of the dataset.

3/5/20: The mean value is 210.14, with a minimum of 0.0 and a maximum of 40592.0. This reflects the central tendency and spread of the dataset.

3/6/20: The mean value is 218.21, with a minimum of 0.0 and a maximum of 42033.0. This reflects the central tendency and spread of the dataset.

3/7/20: The mean value is 227.96, with a minimum of 0.0 and a maximum of 43500.0. This reflects the central tendency and spread of the dataset.

3/8/20: The mean value is 237.08, with a minimum of 0.0 and a maximum of 45235.0. This reflects the central tendency and spread of the dataset.

3/9/20: The mean value is 244.11, with a minimum of 0.0 and a maximum of 46488.0. This reflects the central tendency and spread of the dataset.

3/10/20: The mean value is 251.56, with a minimum of 0.0 and a maximum of 47743.0. This reflects the central tendency and spread of the dataset.

3/11/20: The mean value is 261.71, with a minimum of 0.0 and a maximum of 49134.0. This reflects the central tendency and spread of the dataset.

3/12/20: The mean value is 266.88, with a minimum of 0.0 and a maximum of 50318.0. This reflects the central tendency and spread of the dataset.

3/13/20: The mean value is 274.41, with a minimum of 0.0 and a maximum of 51553.0. This reflects the central tendency and spread of the dataset.

3/14/20: The mean value is 283.67, with a minimum of 0.0 and a maximum of 52960.0. This reflects the central tendency and spread of the dataset.

3/15/20: The mean value is 296.99, with a minimum of 0.0 and a maximum of 54288.0. This reflects the central tendency and spread of the dataset.

3/16/20: The mean value is 305.01, with a minimum of 0.0 and a maximum of 55142.0. This reflects the central tendency and spread of the dataset.

3/17/20: The mean value is 315.74, with a minimum of 0.0 and a maximum of 56003.0. This reflects the central tendency and spread of the dataset.

3/18/20: The mean value is 325.45, with a minimum of 0.0 and a maximum of 56927.0. This reflects the central tendency and spread of the dataset.

3/19/20: The mean value is 331.87, with a minimum of 0.0 and a maximum of 57682.0. This reflects the central tendency and spread of the dataset.

3/20/20: The mean value is 341.41, with a minimum of 0.0 and a maximum of 58382.0. This reflects the central tendency and spread of the dataset.

3/21/20: The mean value is 358.0, with a minimum of 0.0 and a maximum of 58946.0. This reflects the central tendency and spread of the dataset.

3/22/20: The mean value is 382.29, with a minimum of 0.0 and a maximum of 59433.0. This reflects the central tendency and spread of the dataset.

3/23/20: The mean value is 384.12, with a minimum of 0.0 and a maximum of 59879.0. This reflects the central tendency and spread of the dataset.

3/24/20: The mean value is 421.76, with a minimum of 0.0 and a maximum of 60324.0. This reflects the central tendency and spread of the dataset.

3/25/20: The mean value is 444.35, with a minimum of 0.0 and a maximum of 60811.0. This reflects the central tendency and spread of the dataset.

3/26/20: The mean value is 477.05, with a minimum of 0.0 and a maximum of 61201.0. This reflects the central tendency and spread of the dataset.

3/27/20: The mean value is 511.37, with a minimum of 0.0 and a maximum of 61732.0. This reflects the central tendency and spread of the dataset.

3/28/20: The mean value is 544.61, with a minimum of 0.0 and a maximum of 62098.0. This reflects the central tendency and spread of the dataset.

3/29/20: The mean value is 581.5, with a minimum of 0.0 and a maximum of 62570.0. This reflects the central tendency and spread of the dataset.

3/30/20: The mean value is 641.89, with a minimum of 0.0 and a maximum of 62889.0. This reflects the central tendency and spread of the dataset.

3/31/20: The mean value is 694.57, with a minimum of 0.0 and a maximum of 63153.0. This reflects the central tendency and spread of the dataset.

4/1/20: The mean value is 754.58, with a minimum of 0.0 and a maximum of 63326.0. This reflects the central tendency and spread of the dataset.

4/2/20: The mean value is 821.2, with a minimum of 0.0 and a maximum of 63471.0. This reflects the central tendency and spread of the dataset.

4/3/20: The mean value is 881.56, with a minimum of 0.0 and a maximum of 63612.0. This reflects the central tendency and spread of the dataset.

4/4/20: The mean value is 961.41, with a minimum of 0.0 and a maximum of 63762.0. This reflects the central tendency and spread of the dataset.

4/5/20: The mean value is 1015.68, with a minimum of 0.0 and a maximum of 63945.0. This reflects the central tendency and spread of the dataset.

4/6/20: The mean value is 1080.49, with a minimum of 0.0 and a maximum of 64014.0. This reflects the central tendency and spread of the dataset.

4/7/20: The mean value is 1171.61, with a minimum of 0.0 and a maximum of 64073.0. This reflects the central tendency and spread of the dataset.

4/8/20: The mean value is 1284.18, with a minimum of 0.0 and a maximum of 64142.0. This reflects the central tendency and spread of the dataset.

4/9/20: The mean value is 1382.82, with a minimum of 0.0 and a maximum of 64187.0. This reflects the central tendency and spread of the dataset.

4/10/20: The mean value is 1467.91, with a minimum of 0.0 and a maximum of 64236.0. This reflects the central tendency and spread of the dataset.

4/11/20: The mean value is 1570.45, with a minimum of 0.0 and a maximum of 64264.0. This reflects the central tendency and spread of the dataset.

4/12/20: The mean value is 1646.34, with a minimum of 0.0 and a maximum of 64281.0. This reflects the central tendency and spread of the dataset.

4/13/20: The mean value is 1752.81, with a minimum of 0.0 and a maximum of 64727.0. This reflects the central tendency and spread of the dataset.

4/14/20: The mean value is 1850.75, with a minimum of 0.0 and a maximum of 68200.0. This reflects the central tendency and spread of the dataset.

4/15/20: The mean value is 1993.62, with a minimum of 0.0 and a maximum of 72600.0. This reflects the central tendency and spread of the dataset.

4/16/20: The mean value is 2114.38, with a minimum of 0.0 and a maximum of 77000.0. This reflects the central tendency and spread of the dataset.

4/17/20: The mean value is 2216.69, with a minimum of 0.0 and a maximum of 83114.0. This reflects the central tendency and spread of the dataset.

4/18/20: The mean value is 2309.89, with a minimum of 0.0 and a maximum of 85400.0. This reflects the central tendency and spread of the dataset.

4/19/20: The mean value is 2433.97, with a minimum of 0.0 and a maximum of 88000.0. This reflects the central tendency and spread of the dataset.

4/20/20: The mean value is 2520.51, with a minimum of 0.0 and a maximum of 91500.0. This reflects the central tendency and spread of the dataset.

4/21/20: The mean value is 2656.45, with a minimum of 0.0 and a maximum of 95200.0. This reflects the central tendency and spread of the dataset.

4/22/20: The mean value is 2774.14, with a minimum of 0.0 and a maximum of 99400.0. This reflects the central tendency and spread of the dataset.

4/23/20: The mean value is 2886.37, with a minimum of 0.0 and a maximum of 103300.0. This reflects the central tendency and spread of the dataset.

4/24/20: The mean value is 3082.01, with a minimum of 0.0 and a maximum of 109800.0. This reflects the central tendency and spread of the dataset.

4/25/20: The mean value is 3190.26, with a minimum of 0.0 and a maximum of 109800.0. This reflects the central tendency and spread of the dataset.

4/26/20: The mean value is 3302.53, with a minimum of 0.0 and a maximum of 112000.0. This reflects the central tendency and spread of the dataset.

4/27/20: The mean value is 3411.31, with a minimum of 0.0 and a maximum of 114500.0. This reflects the central tendency and spread of the dataset.

4/28/20: The mean value is 3541.03, with a minimum of 0.0 and a maximum of 117400.0. This reflects the central tendency and spread of the dataset.

4/29/20: The mean value is 3705.28, with a minimum of 0.0 and a maximum of 120720.0. This reflects the central tendency and spread of the dataset.

4/30/20: The mean value is 3959.54, with a minimum of 0.0 and a maximum of 153947.0. This reflects the central tendency and spread of the dataset.

5/1/20: The mean value is 4108.47, with a minimum of 0.0 and a maximum of 164015.0. This reflects the central tendency and spread of the dataset.

5/2/20: The mean value is 4267.3, with a minimum of 0.0 and a maximum of 175382.0. This reflects the central tendency and spread of the dataset.

5/3/20: The mean value is 4394.23, with a minimum of 0.0 and a maximum of 180152.0. This reflects the central tendency and spread of the dataset.

5/4/20: The mean value is 4527.28, with a minimum of 0.0 and a maximum of 187180.0. This reflects the central tendency and spread of the dataset.

5/5/20: The mean value is 4669.73, with a minimum of 0.0 and a maximum of 189791.0. This reflects the central tendency and spread of the dataset.

5/6/20: The mean value is 4849.87, with a minimum of 0.0 and a maximum of 189910.0. This reflects the central tendency and spread of the dataset.

5/7/20: The mean value is 5004.13, with a minimum of 0.0 and a maximum of 195036.0. This reflects the central tendency and spread of the dataset.

5/8/20: The mean value is 5146.36, with a minimum of 0.0 and a maximum of 198993.0. This reflects the central tendency and spread of the dataset.

5/9/20: The mean value is 5355.29, with a minimum of 0.0 and a maximum of 212534.0. This reflects the central tendency and spread of the dataset.

5/10/20: The mean value is 5487.27, with a minimum of 0.0 and a maximum of 216169.0. This reflects the central tendency and spread of the dataset.

5/11/20: The mean value is 5670.36, with a minimum of 0.0 and a maximum of 232733.0. This reflects the central tendency and spread of the dataset.

5/12/20: The mean value is 5815.03, with a minimum of 0.0 and a maximum of 230287.0. This reflects the central tendency and spread of the dataset.

5/13/20: The mean value is 6033.43, with a minimum of 0.0 and a maximum of 243430.0. This reflects the central tendency and spread of the dataset.

5/14/20: The mean value is 6188.42, with a minimum of 0.0 and a maximum of 246414.0. This reflects the central tendency and spread of the dataset.

5/15/20: The mean value is 6376.26, with a minimum of 0.0 and a maximum of 250747.0. This reflects the central tendency and spread of the dataset.

5/16/20: The mean value is 6596.61, with a minimum of 0.0 and a maximum of 268376.0. This reflects the central tendency and spread of the dataset.

5/17/20: The mean value is 6756.78, with a minimum of 0.0 and a maximum of 272265.0. This reflects the central tendency and spread of the dataset.

5/18/20: The mean value is 6963.39, with a minimum of 0.0 and a maximum of 283178.0. This reflects the central tendency and spread of the dataset.

5/19/20: The mean value is 7166.76, with a minimum of 0.0 and a maximum of 289392.0. This reflects the central tendency and spread of the dataset.

5/20/20: The mean value is 7397.18, with a minimum of 0.0 and a maximum of 294312.0. This reflects the central tendency and spread of the dataset.

5/21/20: The mean value is 7597.23, with a minimum of 0.0 and a maximum of 298418.0. This reflects the central tendency and spread of the dataset.

5/22/20: The mean value is 8021.46, with a minimum of 0.0 and a maximum of 350135.0. This reflects the central tendency and spread of the dataset.

5/23/20: The mean value is 8235.71, with a minimum of 0.0 and a maximum of 361239.0. This reflects the central tendency and spread of the dataset.

5/24/20: The mean value is 8452.59, with a minimum of 0.0 and a maximum of 366736.0. This reflects the central tendency and spread of the dataset.

5/25/20: The mean value is 8701.42, with a minimum of 0.0 and a maximum of 379157.0. This reflects the central tendency and spread of the dataset.

5/26/20: The mean value is 8916.91, with a minimum of 0.0 and a maximum of 384902.0. This reflects the central tendency and spread of the dataset.

5/27/20: The mean value is 9164.34, with a minimum of 0.0 and a maximum of 391508.0. This reflects the central tendency and spread of the dataset.

5/28/20: The mean value is 9425.53, with a minimum of 0.0 and a maximum of 399991.0. This reflects the central tendency and spread of the dataset.

5/29/20: The mean value is 9727.43, with a minimum of 0.0 and a maximum of 406446.0. This reflects the central tendency and spread of the dataset.

5/30/20: The mean value is 10002.65, with a minimum of 0.0 and a maximum of 416461.0. This reflects the central tendency and spread of the dataset.

5/31/20: The mean value is 10301.04, with a minimum of 0.0 and a maximum of 444758.0. This reflects the central tendency and spread of the dataset.

6/1/20: The mean value is 10515.57, with a minimum of 0.0 and a maximum of 458231.0. This reflects the central tendency and spread of the dataset.

6/2/20: The mean value is 10922.28, with a minimum of 0.0 and a maximum of 463868.0. This reflects the central tendency and spread of the dataset.

6/3/20: The mean value is 11231.23, with a minimum of 0.0 and a maximum of 479258.0. This reflects the central tendency and spread of the dataset.

6/4/20: The mean value is 11504.92, with a minimum of 0.0 and a maximum of 485002.0. This reflects the central tendency and spread of the dataset.

6/5/20: The mean value is 11775.19, with a minimum of 0.0 and a maximum of 491706.0. This reflects the central tendency and spread of the dataset.

6/6/20: The mean value is 12057.28, with a minimum of 0.0 and a maximum of 500849.0. This reflects the central tendency and spread of the dataset.

6/7/20: The mean value is 12272.54, with a minimum of 0.0 and a maximum of 506367.0. This reflects the central tendency and spread of the dataset.

6/8/20: The mean value is 12864.71, with a minimum of 0.0 and a maximum of 518522.0. This reflects the central tendency and spread of the dataset.

6/9/20: The mean value is 13186.09, with a minimum of 0.0 and a maximum of 524855.0. This reflects the central tendency and spread of the dataset.

6/10/20: The mean value is 13495.43, with a minimum of 0.0 and a maximum of 533504.0. This reflects the central tendency and spread of the dataset.

6/11/20: The mean value is 13830.85, with a minimum of 0.0 and a maximum of 540292.0. This reflects the central tendency and spread of the dataset.

6/12/20: The mean value is 14142.34, with a minimum of 0.0 and a maximum of 547386.0. This reflects the central tendency and spread of the dataset.

6/13/20: The mean value is 14477.89, with a minimum of 0.0 and a maximum of 556606.0. This reflects the central tendency and spread of the dataset.

6/14/20: The mean value is 14754.53, with a minimum of 0.0 and a maximum of 561816.0. This reflects the central tendency and spread of the dataset.

6/15/20: The mean value is 15068.05, with a minimum of 0.0 and a maximum of 576334.0. This reflects the central tendency and spread of the dataset.

6/16/20: The mean value is 15450.32, with a minimum of 0.0 and a maximum of 583503.0. This reflects the central tendency and spread of the dataset.

6/17/20: The mean value is 15914.49, with a minimum of 0.0 and a maximum of 592191.0. This reflects the central tendency and spread of the dataset.

6/18/20: The mean value is 16231.49, with a minimum of 0.0 and a maximum of 599115.0. This reflects the central tendency and spread of the dataset.

6/19/20: The mean value is 16602.56, with a minimum of 0.0 and a maximum of 606715.0. This reflects the central tendency and spread of the dataset.

6/20/20: The mean value is 17055.13, with a minimum of 0.0 and a maximum of 617460.0. This reflects the central tendency and spread of the dataset.

6/21/20: The mean value is 17323.44, with a minimum of 0.0 and a maximum of 622133.0. This reflects the central tendency and spread of the dataset.

6/22/20: The mean value is 17681.36, with a minimum of 0.0 and a maximum of 640198.0. This reflects the central tendency and spread of the dataset.

6/23/20: The mean value is 18087.83, with a minimum of 0.0 and a maximum of 647548.0. This reflects the central tendency and spread of the dataset.

6/24/20: The mean value is 18540.0, with a minimum of 0.0 and a maximum of 660469.0. This reflects the central tendency and spread of the dataset.

6/25/20: The mean value is 18902.8, with a minimum of 0.0 and a maximum of 679524.0. This reflects the central tendency and spread of the dataset.

6/26/20: The mean value is 19316.8, with a minimum of 0.0 and a maximum of 702399.0. This reflects the central tendency and spread of the dataset.

6/27/20: The mean value is 19731.97, with a minimum of 0.0 and a maximum of 727715.0. This reflects the central tendency and spread of the dataset.

6/28/20: The mean value is 20080.4, with a minimum of 0.0 and a maximum of 746018.0. This reflects the central tendency and spread of the dataset.

6/29/20: The mean value is 20449.85, with a minimum of 0.0 and a maximum of 757811.0. This reflects the central tendency and spread of the dataset.

6/30/20: The mean value is 20908.21, with a minimum of 0.0 and a maximum of 788318.0. This reflects the central tendency and spread of the dataset.

7/1/20: The mean value is 21361.0, with a minimum of 0.0 and a maximum of 817642.0. This reflects the central tendency and spread of the dataset.

7/2/20: The mean value is 22474.03, with a minimum of 0.0 and a maximum of 957692.0. This reflects the central tendency and spread of the dataset.

7/3/20: The mean value is 22903.27, with a minimum of 0.0 and a maximum of 984615.0. This reflects the central tendency and spread of the dataset.

7/4/20: The mean value is 23667.96, with a minimum of 0.0 and a maximum of 990731.0. This reflects the central tendency and spread of the dataset.

7/5/20: The mean value is 24134.2, with a minimum of 0.0 and a maximum of 1029045.0. This reflects the central tendency and spread of the dataset.

7/6/20: The mean value is 24617.37, with a minimum of 0.0 and a maximum of 1062542.0. This reflects the central tendency and spread of the dataset.

7/7/20: The mean value is 25183.87, with a minimum of 0.0 and a maximum of 1107012.0. This reflects the central tendency and spread of the dataset.

7/8/20: The mean value is 25801.27, with a minimum of 0.0 and a maximum of 1139844.0. This reflects the central tendency and spread of the dataset.

7/9/20: The mean value is 26327.16, with a minimum of 0.0 and a maximum of 1171447.0. This reflects the central tendency and spread of the dataset.

7/10/20: The mean value is 26871.86, with a minimum of 0.0 and a maximum of 1217361.0. This reflects the central tendency and spread of the dataset.

7/11/20: The mean value is 27362.87, with a minimum of 0.0 and a maximum of 1244088.0. This reflects the central tendency and spread of the dataset.

7/12/20: The mean value is 27799.7, with a minimum of 0.0 and a maximum of 1264843.0. This reflects the central tendency and spread of the dataset.

7/13/20: The mean value is 28347.82, with a minimum of 0.0 and a maximum of 1291251.0. This reflects the central tendency and spread of the dataset.

7/14/20: The mean value is 28903.46, with a minimum of 0.0 and a maximum of 1323425.0. This reflects the central tendency and spread of the dataset.

7/15/20: The mean value is 29527.75, with a minimum of 0.0 and a maximum of 1350098.0. This reflects the central tendency and spread of the dataset.

7/16/20: The mean value is 30123.41, with a minimum of 0.0 and a maximum of 1397531.0. This reflects the central tendency and spread of the dataset.

7/17/20: The mean value is 30839.9, with a minimum of 0.0 and a maximum of 1428520.0. This reflects the central tendency and spread of the dataset.

7/18/20: The mean value is 31428.93, with a minimum of 0.0 and a maximum of 1447408.0. This reflects the central tendency and spread of the dataset.

7/19/20: The mean value is 31772.9, with a minimum of 0.0 and a maximum of 1459072.0. This reflects the central tendency and spread of the dataset.

7/20/20: The mean value is 32394.49, with a minimum of 0.0 and a maximum of 1514300.0. This reflects the central tendency and spread of the dataset.

7/21/20: The mean value is 33076.89, with a minimum of 0.0 and a maximum of 1555339.0. This reflects the central tendency and spread of the dataset.

7/22/20: The mean value is 33778.98, with a minimum of 0.0 and a maximum of 1591975.0. This reflects the central tendency and spread of the dataset.

7/23/20: The mean value is 34467.38, with a minimum of 0.0 and a maximum of 1620313.0. This reflects the central tendency and spread of the dataset.

7/24/20: The mean value is 35359.19, with a minimum of 0.0 and a maximum of 1693214.0. This reflects the central tendency and spread of the dataset.

7/25/20: The mean value is 36217.82, with a minimum of 0.0 and a maximum of 1785359.0. This reflects the central tendency and spread of the dataset.

7/26/20: The mean value is 36777.59, with a minimum of 0.0 and a maximum of 1812913.0. This reflects the central tendency and spread of the dataset.

7/27/20: The mean value is 37447.05, with a minimum of 0.0 and a maximum of 1846641.0. This reflects the central tendency and spread of the dataset.

7/28/20: The mean value is 38112.9, with a minimum of 0.0 and a maximum of 1868749.0. This reflects the central tendency and spread of the dataset.

7/29/20: The mean value is 38904.31, with a minimum of 0.0 and a maximum of 1922802.0. This reflects the central tendency and spread of the dataset.

7/30/20: The mean value is 39738.35, with a minimum of 0.0 and a maximum of 1956807.0. This reflects the central tendency and spread of the dataset.

7/31/20: The mean value is 40518.05, with a minimum of 0.0 and a maximum of 2008854.0. This reflects the central tendency and spread of the dataset.

8/1/20: The mean value is 41236.41, with a minimum of 0.0 and a maximum of 2037982.0. This reflects the central tendency and spread of the dataset.

8/2/20: The mean value is 41778.27, with a minimum of 0.0 and a maximum of 2062876.0. This reflects the central tendency and spread of the dataset.

8/3/20: The mean value is 42647.2, with a minimum of 0.0 and a maximum of 2098976.0. This reflects the central tendency and spread of the dataset.

8/4/20: The mean value is 43520.86, with a minimum of 0.0 and a maximum of 2157484.0. This reflects the central tendency and spread of the dataset.

8/5/20: The mean value is 44386.84, with a minimum of 0.0 and a maximum of 2190361.0. This reflects the central tendency and spread of the dataset.

8/6/20: The mean value is 45124.37, with a minimum of 0.0 and a maximum of 2230542.0. This reflects the central tendency and spread of the dataset.

8/7/20: The mean value is 45874.55, with a minimum of 0.0 and a maximum of 2272299.0. This reflects the central tendency and spread of the dataset.

8/8/20: The mean value is 46656.79, with a minimum of 0.0 and a maximum of 2321537.0. This reflects the central tendency and spread of the dataset.

8/9/20: The mean value is 47355.12, with a minimum of 0.0 and a maximum of 2356983.0. This reflects the central tendency and spread of the dataset.

8/10/20: The mean value is 47996.49, with a minimum of 0.0 and a maximum of 2390830.0. This reflects the central tendency and spread of the dataset.

8/11/20: The mean value is 49188.16, with a minimum of 0.0 and a maximum of 2449338.0. This reflects the central tendency and spread of the dataset.

8/12/20: The mean value is 50128.18, with a minimum of 0.0 and a maximum of 2506228.0. This reflects the central tendency and spread of the dataset.

8/13/20: The mean value is 50768.44, with a minimum of 0.0 and a maximum of 2521100.0. This reflects the central tendency and spread of the dataset.

8/14/20: The mean value is 51874.81, with a minimum of 0.0 and a maximum of 2616981.0. This reflects the central tendency and spread of the dataset.

8/15/20: The mean value is 52533.45, with a minimum of 0.0 and a maximum of 2622878.0. This reflects the central tendency and spread of the dataset.

8/16/20: The mean value is 53443.41, with a minimum of 0.0 and a maximum of 2655017.0. This reflects the central tendency and spread of the dataset.

8/17/20: The mean value is 54267.67, with a minimum of 0.0 and a maximum of 2699080.0. This reflects the central tendency and spread of the dataset.

8/18/20: The mean value is 55156.8, with a minimum of 0.0 and a maximum of 2751246.0. This reflects the central tendency and spread of the dataset.

8/19/20: The mean value is 56008.36, with a minimum of 0.0 and a maximum of 2801931.0. This reflects the central tendency and spread of the dataset.

8/20/20: The mean value is 56820.05, with a minimum of 0.0 and a maximum of 2844318.0. This reflects the central tendency and spread of the dataset.

8/21/20: The mean value is 57478.25, with a minimum of 0.0 and a maximum of 2855558.0. This reflects the central tendency and spread of the dataset.

8/22/20: The mean value is 58298.28, with a minimum of 0.0 and a maximum of 2913966.0. This reflects the central tendency and spread of the dataset.

8/23/20: The mean value is 59144.08, with a minimum of 0.0 and a maximum of 2947784.0. This reflects the central tendency and spread of the dataset.

8/24/20: The mean value is 59923.02, with a minimum of 0.0 and a maximum of 2976256.0. This reflects the central tendency and spread of the dataset.

8/25/20: The mean value is 60827.27, with a minimum of 0.0 and a maximum of 3032551.0. This reflects the central tendency and spread of the dataset.

8/26/20: The mean value is 61709.05, with a minimum of 0.0 and a maximum of 3082447.0. This reflects the central tendency and spread of the dataset.

8/27/20: The mean value is 62518.52, with a minimum of 0.0 and a maximum of 3122846.0. This reflects the central tendency and spread of the dataset.

8/28/20: The mean value is 63296.35, with a minimum of 0.0 and a maximum of 3158783.0. This reflects the central tendency and spread of the dataset.

8/29/20: The mean value is 64122.2, with a minimum of 0.0 and a maximum of 3202185.0. This reflects the central tendency and spread of the dataset.

8/30/20: The mean value is 64943.41, with a minimum of 0.0 and a maximum of 3237615.0. This reflects the central tendency and spread of the dataset.

8/31/20: The mean value is 65727.77, with a minimum of 0.0 and a maximum of 3268591.0. This reflects the central tendency and spread of the dataset.

9/1/20: The mean value is 66735.29, with a minimum of 0.0 and a maximum of 3345240.0. This reflects the central tendency and spread of the dataset.

9/2/20: The mean value is 67591.69, with a minimum of 0.0 and a maximum of 3387309.0. This reflects the central tendency and spread of the dataset.

9/3/20: The mean value is 68456.36, with a minimum of 0.0 and a maximum of 3429435.0. This reflects the central tendency and spread of the dataset.

9/4/20: The mean value is 69290.35, with a minimum of 0.0 and a maximum of 3464278.0. This reflects the central tendency and spread of the dataset.

9/5/20: The mean value is 70075.54, with a minimum of 0.0 and a maximum of 3498999.0. This reflects the central tendency and spread of the dataset.

9/6/20: The mean value is 70902.75, with a minimum of 0.0 and a maximum of 3522155.0. This reflects the central tendency and spread of the dataset.

9/7/20: The mean value is 71674.31, with a minimum of 0.0 and a maximum of 3549201.0. This reflects the central tendency and spread of the dataset.

9/8/20: The mean value is 72462.66, with a minimum of 0.0 and a maximum of 3572421.0. This reflects the central tendency and spread of the dataset.

9/9/20: The mean value is 73401.2, with a minimum of 0.0 and a maximum of 3611632.0. This reflects the central tendency and spread of the dataset.

9/10/20: The mean value is 74247.4, with a minimum of 0.0 and a maximum of 3657701.0. This reflects the central tendency and spread of the dataset.

9/11/20: The mean value is 75121.05, with a minimum of 0.0 and a maximum of 3695158.0. This reflects the central tendency and spread of the dataset.

9/12/20: The mean value is 75991.88, with a minimum of 0.0 and a maximum of 3723206.0. This reflects the central tendency and spread of the dataset.

9/13/20: The mean value is 76725.61, with a minimum of 0.0 and a maximum of 3780107.0. This reflects the central tendency and spread of the dataset.

9/14/20: The mean value is 77618.05, with a minimum of 0.0 and a maximum of 3859399.0. This reflects the central tendency and spread of the dataset.

9/15/20: The mean value is 78501.94, with a minimum of 0.0 and a maximum of 3942360.0. This reflects the central tendency and spread of the dataset.

9/16/20: The mean value is 79398.36, with a minimum of 0.0 and a maximum of 4025079.0. This reflects the central tendency and spread of the dataset.

9/17/20: The mean value is 80258.46, with a minimum of 0.0 and a maximum of 4112551.0. This reflects the central tendency and spread of the dataset.

9/18/20: The mean value is 81239.48, with a minimum of 0.0 and a maximum of 4208431.0. This reflects the central tendency and spread of the dataset.

9/19/20: The mean value is 82165.18, with a minimum of 0.0 and a maximum of 4303043.0. This reflects the central tendency and spread of the dataset.

9/20/20: The mean value is 83091.15, with a minimum of 0.0 and a maximum of 4396399.0. This reflects the central tendency and spread of the dataset.

9/21/20: The mean value is 84049.91, with a minimum of 0.0 and a maximum of 4497867.0. This reflects the central tendency and spread of the dataset.

9/22/20: The mean value is 84907.29, with a minimum of 0.0 and a maximum of 4587613.0. This reflects the central tendency and spread of the dataset.

9/23/20: The mean value is 85936.25, with a minimum of 0.0 and a maximum of 4674987.0. This reflects the central tendency and spread of the dataset.

9/24/20: The mean value is 86934.86, with a minimum of 0.0 and a maximum of 4756164.0. This reflects the central tendency and spread of the dataset.

9/25/20: The mean value is 87869.3, with a minimum of 0.0 and a maximum of 4849584.0. This reflects the central tendency and spread of the dataset.

9/26/20: The mean value is 88893.32, with a minimum of 0.0 and a maximum of 4941627.0. This reflects the central tendency and spread of the dataset.

9/27/20: The mean value is 89728.7, with a minimum of 0.0 and a maximum of 5016520.0. This reflects the central tendency and spread of the dataset.

9/28/20: The mean value is 90597.91, with a minimum of 0.0 and a maximum of 5101397.0. This reflects the central tendency and spread of the dataset.

9/29/20: The mean value is 91540.44, with a minimum of 0.0 and a maximum of 5187825.0. This reflects the central tendency and spread of the dataset.

9/30/20: The mean value is 92509.96, with a minimum of 0.0 and a maximum of 5273201.0. This reflects the central tendency and spread of the dataset.

10/1/20: The mean value is 93375.38, with a minimum of 0.0 and a maximum of 5352078.0. This reflects the central tendency and spread of the dataset.

10/2/20: The mean value is 94048.44, with a minimum of 0.0 and a maximum of 5427706.0. This reflects the central tendency and spread of the dataset.

10/3/20: The mean value is 95046.93, with a minimum of 0.0 and a maximum of 5509966.0. This reflects the central tendency and spread of the dataset.

10/4/20: The mean value is 95914.62, with a minimum of 0.0 and a maximum of 5586703.0. This reflects the central tendency and spread of the dataset.

10/5/20: The mean value is 96842.11, with a minimum of 0.0 and a maximum of 5662490.0. This reflects the central tendency and spread of the dataset.

10/6/20: The mean value is 97750.83, with a minimum of 0.0 and a maximum of 5744693.0. This reflects the central tendency and spread of the dataset.

10/7/20: The mean value is 98747.68, with a minimum of 0.0 and a maximum of 5827704.0. This reflects the central tendency and spread of the dataset.

10/8/20: The mean value is 99605.11, with a minimum of 0.0 and a maximum of 5906069.0. This reflects the central tendency and spread of the dataset.

10/9/20: The mean value is 100412.92, with a minimum of 0.0 and a maximum of 5988822.0. This reflects the central tendency and spread of the dataset.

10/10/20: The mean value is 101176.3, with a minimum of 0.0 and a maximum of 6077976.0. This reflects the central tendency and spread of the dataset.

10/11/20: The mean value is 102045.93, with a minimum of 0.0 and a maximum of 6149535.0. This reflects the central tendency and spread of the dataset.

10/12/20: The mean value is 102827.46, with a minimum of 0.0 and a maximum of 6227295.0. This reflects the central tendency and spread of the dataset.

10/13/20: The mean value is 103579.16, with a minimum of 0.0 and a maximum of 6301927.0. This reflects the central tendency and spread of the dataset.

10/14/20: The mean value is 104408.26, with a minimum of 0.0 and a maximum of 6383441.0. This reflects the central tendency and spread of the dataset.

10/15/20: The mean value is 105217.92, with a minimum of 0.0 and a maximum of 6453779.0. This reflects the central tendency and spread of the dataset.

10/16/20: The mean value is 106010.85, with a minimum of 0.0 and a maximum of 6524595.0. This reflects the central tendency and spread of the dataset.

10/17/20: The mean value is 106785.53, with a minimum of 0.0 and a maximum of 6597209.0. This reflects the central tendency and spread of the dataset.

10/18/20: The mean value is 107572.29, with a minimum of 0.0 and a maximum of 6663608.0. This reflects the central tendency and spread of the dataset.

10/19/20: The mean value is 108362.94, with a minimum of 0.0 and a maximum of 6733328.0. This reflects the central tendency and spread of the dataset.

10/20/20: The mean value is 109189.04, with a minimum of 0.0 and a maximum of 6795103.0. This reflects the central tendency and spread of the dataset.

10/21/20: The mean value is 110015.06, with a minimum of 0.0 and a maximum of 6874518.0. This reflects the central tendency and spread of the dataset.

10/22/20: The mean value is 110900.94, with a minimum of 0.0 and a maximum of 6948497.0. This reflects the central tendency and spread of the dataset.

10/23/20: The mean value is 111708.86, with a minimum of 0.0 and a maximum of 7016046.0. This reflects the central tendency and spread of the dataset.

10/24/20: The mean value is 112535.29, with a minimum of 0.0 and a maximum of 7078123.0. This reflects the central tendency and spread of the dataset.

10/25/20: The mean value is 113305.61, with a minimum of 0.0 and a maximum of 7137228.0. This reflects the central tendency and spread of the dataset.

10/26/20: The mean value is 114239.57, with a minimum of 0.0 and a maximum of 7201070.0. This reflects the central tendency and spread of the dataset.

10/27/20: The mean value is 116543.17, with a minimum of 0.0 and a maximum of 7259509.0. This reflects the central tendency and spread of the dataset.

10/28/20: The mean value is 117582.13, with a minimum of 0.0 and a maximum of 7315989.0. This reflects the central tendency and spread of the dataset.

10/29/20: The mean value is 118545.63, with a minimum of 0.0 and a maximum of 7373375.0. This reflects the central tendency and spread of the dataset.

10/30/20: The mean value is 119544.66, with a minimum of 0.0 and a maximum of 7432829.0. This reflects the central tendency and spread of the dataset.

10/31/20: The mean value is 120499.44, with a minimum of 0.0 and a maximum of 7491513.0. This reflects the central tendency and spread of the dataset.

11/1/20: The mean value is 121506.8, with a minimum of 0.0 and a maximum of 7544798.0. This reflects the central tendency and spread of the dataset.

11/2/20: The mean value is 122600.12, with a minimum of 0.0 and a maximum of 7603121.0. This reflects the central tendency and spread of the dataset.

11/3/20: The mean value is 123582.37, with a minimum of 0.0 and a maximum of 7656478.0. This reflects the central tendency and spread of the dataset.

11/4/20: The mean value is 124673.12, with a minimum of 0.0 and a maximum of 7711809.0. This reflects the central tendency and spread of the dataset.

11/5/20: The mean value is 125858.85, with a minimum of 0.0 and a maximum of 7765966.0. This reflects the central tendency and spread of the dataset.

11/6/20: The mean value is 126985.26, with a minimum of 0.0 and a maximum of 7819886.0. This reflects the central tendency and spread of the dataset.

11/7/20: The mean value is 128153.59, with a minimum of 0.0 and a maximum of 7868968.0. This reflects the central tendency and spread of the dataset.

11/8/20: The mean value is 129141.39, with a minimum of 0.0 and a maximum of 7917373.0. This reflects the central tendency and spread of the dataset.

11/9/20: The mean value is 130144.21, with a minimum of 0.0 and a maximum of 7959406.0. This reflects the central tendency and spread of the dataset.

11/10/20: The mean value is 131148.13, with a minimum of 0.0 and a maximum of 8013783.0. This reflects the central tendency and spread of the dataset.

11/11/20: The mean value is 132633.92, with a minimum of 0.0 and a maximum of 8066501.0. This reflects the central tendency and spread of the dataset.

11/12/20: The mean value is 133514.5, with a minimum of 0.0 and a maximum of 8115580.0. This reflects the central tendency and spread of the dataset.

11/13/20: The mean value is 134694.37, with a minimum of 0.0 and a maximum of 8163572.0. This reflects the central tendency and spread of the dataset.

11/14/20: The mean value is 135780.59, with a minimum of 0.0 and a maximum of 8205728.0. This reflects the central tendency and spread of the dataset.

11/15/20: The mean value is 136677.85, with a minimum of 0.0 and a maximum of 8249579.0. This reflects the central tendency and spread of the dataset.

11/16/20: The mean value is 138201.32, with a minimum of 0.0 and a maximum of 8290370.0. This reflects the central tendency and spread of the dataset.

11/17/20: The mean value is 139894.27, with a minimum of 0.0 and a maximum of 8335109.0. This reflects the central tendency and spread of the dataset.

11/18/20: The mean value is 141312.81, with a minimum of 0.0 and a maximum of 8383602.0. This reflects the central tendency and spread of the dataset.

11/19/20: The mean value is 142770.18, with a minimum of 0.0 and a maximum of 8428409.0. This reflects the central tendency and spread of the dataset.

11/20/20: The mean value is 144158.36, with a minimum of 0.0 and a maximum of 8478124.0. This reflects the central tendency and spread of the dataset.

11/21/20: The mean value is 145483.44, with a minimum of 0.0 and a maximum of 8521617.0. This reflects the central tendency and spread of the dataset.

11/22/20: The mean value is 146547.49, with a minimum of 0.0 and a maximum of 8562641.0. This reflects the central tendency and spread of the dataset.

11/23/20: The mean value is 148149.23, with a minimum of 0.0 and a maximum of 8604955.0. This reflects the central tendency and spread of the dataset.

11/24/20: The mean value is 149600.53, with a minimum of 0.0 and a maximum of 8642771.0. This reflects the central tendency and spread of the dataset.

11/25/20: The mean value is 151307.47, with a minimum of 0.0 and a maximum of 8679138.0. This reflects the central tendency and spread of the dataset.

11/26/20: The mean value is 152734.12, with a minimum of 0.0 and a maximum of 8718517.0. This reflects the central tendency and spread of the dataset.

11/27/20: The mean value is 154205.69, with a minimum of 0.0 and a maximum of 8759969.0. This reflects the central tendency and spread of the dataset.

11/28/20: The mean value is 155593.2, with a minimum of 0.0 and a maximum of 8802267.0. This reflects the central tendency and spread of the dataset.

11/29/20: The mean value is 156867.02, with a minimum of 0.0 and a maximum of 8847600.0. This reflects the central tendency and spread of the dataset.

11/30/20: The mean value is 158434.94, with a minimum of 0.0 and a maximum of 8889585.0. This reflects the central tendency and spread of the dataset.

12/1/20: The mean value is 160292.68, with a minimum of 0.0 and a maximum of 8932647.0. This reflects the central tendency and spread of the dataset.

12/2/20: The mean value is 162094.96, with a minimum of 0.0 and a maximum of 8973373.0. This reflects the central tendency and spread of the dataset.

12/3/20: The mean value is 163797.2, with a minimum of 0.0 and a maximum of 9016289.0. This reflects the central tendency and spread of the dataset.

12/4/20: The mean value is 165437.55, with a minimum of 0.0 and a maximum of 9058822.0. This reflects the central tendency and spread of the dataset.

12/5/20: The mean value is 167147.93, with a minimum of 0.0 and a maximum of 9100792.0. This reflects the central tendency and spread of the dataset.

12/6/20: The mean value is 168374.29, with a minimum of 0.0 and a maximum of 9139901.0. This reflects the central tendency and spread of the dataset.

12/7/20: The mean value is 169982.23, with a minimum of 0.0 and a maximum of 9178946.0. This reflects the central tendency and spread of the dataset.

12/8/20: The mean value is 171703.8, with a minimum of 0.0 and a maximum of 9215581.0. This reflects the central tendency and spread of the dataset.

12/9/20: The mean value is 173367.69, with a minimum of 0.0 and a maximum of 9253306.0. This reflects the central tendency and spread of the dataset.

12/10/20: The mean value is 175278.75, with a minimum of 0.0 and a maximum of 9290809.0. This reflects the central tendency and spread of the dataset.

12/11/20: The mean value is 177148.13, with a minimum of 0.0 and a maximum of 9324328.0. This reflects the central tendency and spread of the dataset.

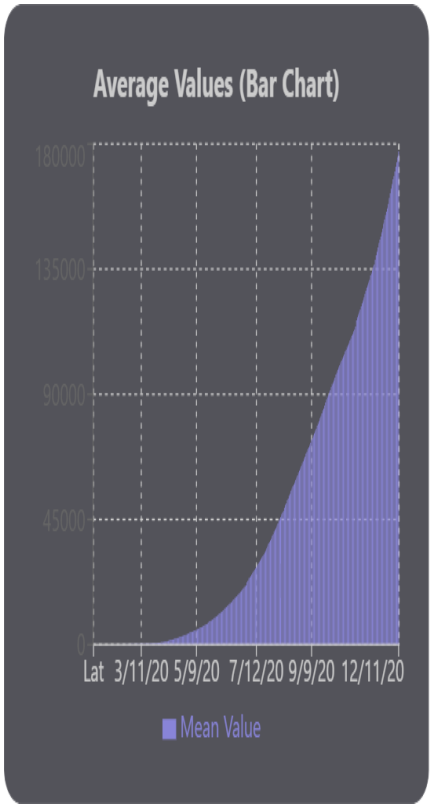

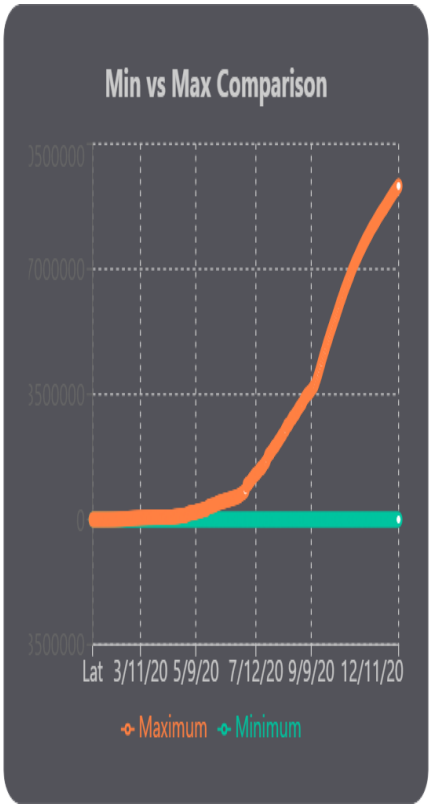

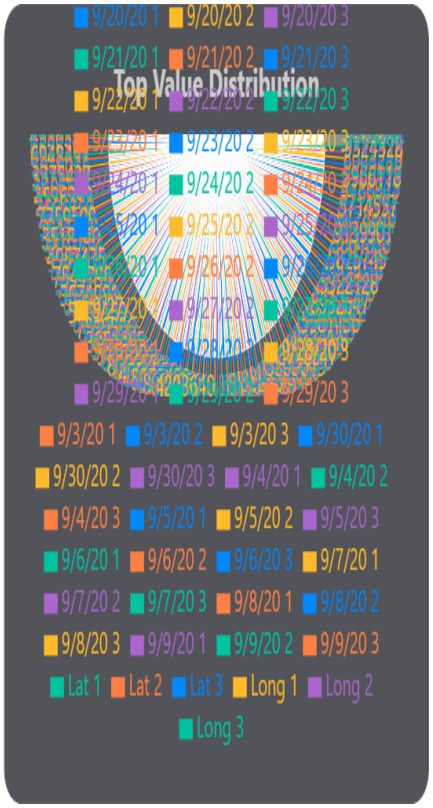

Graph Interpretation:

• The **Bar Chart** illustrates the average (mean) values across different features, helping identify which variables have higher magnitude.
• The **Line Chart** compares minimum and maximum values, highlighting variability and spread.
• The **Pie Chart** represents proportional distribution of top values, giving insight into dominance.

Key Insights

■■ Lat contains potential outliers as maximum values exceed expected range.
■ Lat has high variability indicating diverse data points.

■■ Long contains potential outliers as maximum values exceed expected range.
■ Long has high variability indicating diverse data points.

■■ 1/22/20 contains potential outliers as maximum values exceed expected range.
■ 1/22/20 has high variability indicating diverse data points.

■■ 1/23/20 contains potential outliers as maximum values exceed expected range.
■ 1/23/20 has high variability indicating diverse data points.

■■ 1/24/20 contains potential outliers as maximum values exceed expected range.
■ 1/24/20 has high variability indicating diverse data points.

■■ 1/25/20 contains potential outliers as maximum values exceed expected range.
■ 1/25/20 has high variability indicating diverse data points.

■■ 1/26/20 contains potential outliers as maximum values exceed expected range.
■ 1/26/20 has high variability indicating diverse data points.

■■ 1/27/20 contains potential outliers as maximum values exceed expected range.
■ 1/27/20 has high variability indicating diverse data points.

■■ 1/28/20 contains potential outliers as maximum values exceed expected range.
■ 1/28/20 has high variability indicating diverse data points.

■■ 1/29/20 contains potential outliers as maximum values exceed expected range.
■ 1/29/20 has high variability indicating diverse data points.

■■ 1/30/20 contains potential outliers as maximum values exceed expected range.
■ 1/30/20 has high variability indicating diverse data points.

■■ 1/31/20 contains potential outliers as maximum values exceed expected range.
■ 1/31/20 has high variability indicating diverse data points.

■■ 2/1/20 contains potential outliers as maximum values exceed expected range.
■ 2/1/20 has high variability indicating diverse data points.

■■ 2/2/20 contains potential outliers as maximum values exceed expected range.
■ 2/2/20 has high variability indicating diverse data points.

■■ 2/3/20 contains potential outliers as maximum values exceed expected range.
■ 2/3/20 has high variability indicating diverse data points.

■■ 2/4/20 contains potential outliers as maximum values exceed expected range.
■ 2/4/20 has high variability indicating diverse data points.

■■ 2/5/20 contains potential outliers as maximum values exceed expected range.
■ 2/5/20 has high variability indicating diverse data points.

■■ 2/6/20 contains potential outliers as maximum values exceed expected range.
■ 2/6/20 has high variability indicating diverse data points.

■■ 2/7/20 contains potential outliers as maximum values exceed expected range.
■ 2/7/20 has high variability indicating diverse data points.

■■ 2/8/20 contains potential outliers as maximum values exceed expected range.
■ 2/8/20 has high variability indicating diverse data points.

■■ 2/9/20 contains potential outliers as maximum values exceed expected range.
■ 2/9/20 has high variability indicating diverse data points.

■■ 2/10/20 contains potential outliers as maximum values exceed expected range.
■ 2/10/20 has high variability indicating diverse data points.

■ 9/23/20 has high variability indicating diverse data points.

■■ 9/24/20 contains potential outliers as maximum values exceed expected range.
■ 9/24/20 has high variability indicating diverse data points.

■■ 9/25/20 contains potential outliers as maximum values exceed expected range.
■ 9/25/20 has high variability indicating diverse data points.

■■ 9/26/20 contains potential outliers as maximum values exceed expected range.
■ 9/26/20 has high variability indicating diverse data points.

■■ 9/27/20 contains potential outliers as maximum values exceed expected range.
■ 9/27/20 has high variability indicating diverse data points.

■■ 9/28/20 contains potential outliers as maximum values exceed expected range.
■ 9/28/20 has high variability indicating diverse data points.

■■ 9/29/20 contains potential outliers as maximum values exceed expected range.
■ 9/29/20 has high variability indicating diverse data points.

■■ 9/30/20 contains potential outliers as maximum values exceed expected range.
■ 9/30/20 has high variability indicating diverse data points.

■■ 10/1/20 contains potential outliers as maximum values exceed expected range.
■ 10/1/20 has high variability indicating diverse data points.

■■ 10/2/20 contains potential outliers as maximum values exceed expected range.
■ 10/2/20 has high variability indicating diverse data points.

■■ 10/3/20 contains potential outliers as maximum values exceed expected range.
■ 10/3/20 has high variability indicating diverse data points.

■■ 10/4/20 contains potential outliers as maximum values exceed expected range.
■ 10/4/20 has high variability indicating diverse data points.

■■ 10/5/20 contains potential outliers as maximum values exceed expected range.
■ 10/5/20 has high variability indicating diverse data points.

■■ 10/6/20 contains potential outliers as maximum values exceed expected range.
■ 10/6/20 has high variability indicating diverse data points.

■■ 10/7/20 contains potential outliers as maximum values exceed expected range.
■ 10/7/20 has high variability indicating diverse data points.

■■ 10/8/20 contains potential outliers as maximum values exceed expected range.
■ 10/8/20 has high variability indicating diverse data points.

■■ 10/9/20 contains potential outliers as maximum values exceed expected range.
■ 10/9/20 has high variability indicating diverse data points.

■■ 10/10/20 contains potential outliers as maximum values exceed expected range.
■ 10/10/20 has high variability indicating diverse data points.

■■ 10/11/20 contains potential outliers as maximum values exceed expected range.
■ 10/11/20 has high variability indicating diverse data points.

■■ 10/12/20 contains potential outliers as maximum values exceed expected range.
■ 10/12/20 has high variability indicating diverse data points.

■■ 10/13/20 contains potential outliers as maximum values exceed expected range.
■ 10/13/20 has high variability indicating diverse data points.

■■ 10/14/20 contains potential outliers as maximum values exceed expected range.
■ 10/14/20 has high variability indicating diverse data points.

■■ 10/15/20 contains potential outliers as maximum values exceed expected range.
■ 10/15/20 has high variability indicating diverse data points.

■■ 10/16/20 contains potential outliers as maximum values exceed expected range.
■ 10/16/20 has high variability indicating diverse data points.

■■ 10/17/20 contains potential outliers as maximum values exceed expected range.
■ 10/17/20 has high variability indicating diverse data points.

■■ 10/18/20 contains potential outliers as maximum values exceed expected range.
■ 10/18/20 has high variability indicating diverse data points.

■■ 10/19/20 contains potential outliers as maximum values exceed expected range.
■ 10/19/20 has high variability indicating diverse data points.

■■ 10/20/20 contains potential outliers as maximum values exceed expected range.
■ 10/20/20 has high variability indicating diverse data points.

■■ 10/21/20 contains potential outliers as maximum values exceed expected range.
■ 10/21/20 has high variability indicating diverse data points.

■■ 10/22/20 contains potential outliers as maximum values exceed expected range.
■ 10/22/20 has high variability indicating diverse data points.

■■ 10/23/20 contains potential outliers as maximum values exceed expected range.
■ 10/23/20 has high variability indicating diverse data points.

■■ 10/24/20 contains potential outliers as maximum values exceed expected range.
■ 10/24/20 has high variability indicating diverse data points.

■■ 10/25/20 contains potential outliers as maximum values exceed expected range.
■ 10/25/20 has high variability indicating diverse data points.

■■ 10/26/20 contains potential outliers as maximum values exceed expected range.
■ 10/26/20 has high variability indicating diverse data points.

■■ 10/27/20 contains potential outliers as maximum values exceed expected range.
■ 10/27/20 has high variability indicating diverse data points.

■■ 10/28/20 contains potential outliers as maximum values exceed expected range.
■ 10/28/20 has high variability indicating diverse data points.

■■ 10/29/20 contains potential outliers as maximum values exceed expected range.
■ 10/29/20 has high variability indicating diverse data points.

■■ 10/30/20 contains potential outliers as maximum values exceed expected range.
■ 10/30/20 has high variability indicating diverse data points.

■■ 10/31/20 contains potential outliers as maximum values exceed expected range.
■ 10/31/20 has high variability indicating diverse data points.

■■ 11/1/20 contains potential outliers as maximum values exceed expected range.
■ 11/1/20 has high variability indicating diverse data points.

■■ 11/2/20 contains potential outliers as maximum values exceed expected range.
■ 11/2/20 has high variability indicating diverse data points.

■■ 11/3/20 contains potential outliers as maximum values exceed expected range.
■ 11/3/20 has high variability indicating diverse data points.

■■ 11/4/20 contains potential outliers as maximum values exceed expected range.
■ 11/4/20 has high variability indicating diverse data points.

■■ 11/5/20 contains potential outliers as maximum values exceed expected range.
■ 11/5/20 has high variability indicating diverse data points.

■■ 11/6/20 contains potential outliers as maximum values exceed expected range.

■ 11/6/20 has high variability indicating diverse data points.

■■ 11/7/20 contains potential outliers as maximum values exceed expected range.
■ 11/7/20 has high variability indicating diverse data points.

■■ 11/8/20 contains potential outliers as maximum values exceed expected range.
■ 11/8/20 has high variability indicating diverse data points.

■■ 11/9/20 contains potential outliers as maximum values exceed expected range.
■ 11/9/20 has high variability indicating diverse data points.

■■ 11/10/20 contains potential outliers as maximum values exceed expected range.
■ 11/10/20 has high variability indicating diverse data points.

■■ 11/11/20 contains potential outliers as maximum values exceed expected range.
■ 11/11/20 has high variability indicating diverse data points.

■■ 11/12/20 contains potential outliers as maximum values exceed expected range.
■ 11/12/20 has high variability indicating diverse data points.

■■ 11/13/20 contains potential outliers as maximum values exceed expected range.
■ 11/13/20 has high variability indicating diverse data points.

■■ 11/14/20 contains potential outliers as maximum values exceed expected range.
■ 11/14/20 has high variability indicating diverse data points.

■■ 11/15/20 contains potential outliers as maximum values exceed expected range.
■ 11/15/20 has high variability indicating diverse data points.

■■ 11/16/20 contains potential outliers as maximum values exceed expected range.
■ 11/16/20 has high variability indicating diverse data points.

■■ 11/17/20 contains potential outliers as maximum values exceed expected range.
■ 11/17/20 has high variability indicating diverse data points.

■■ 11/18/20 contains potential outliers as maximum values exceed expected range.
■ 11/18/20 has high variability indicating diverse data points.

■■ 11/19/20 contains potential outliers as maximum values exceed expected range.
■ 11/19/20 has high variability indicating diverse data points.

■■ 11/20/20 contains potential outliers as maximum values exceed expected range.
■ 11/20/20 has high variability indicating diverse data points.

■■ 11/21/20 contains potential outliers as maximum values exceed expected range.
■ 11/21/20 has high variability indicating diverse data points.

■■ 11/22/20 contains potential outliers as maximum values exceed expected range.
■ 11/22/20 has high variability indicating diverse data points.

■■ 11/23/20 contains potential outliers as maximum values exceed expected range.
■ 11/23/20 has high variability indicating diverse data points.

■■ 11/24/20 contains potential outliers as maximum values exceed expected range.
■ 11/24/20 has high variability indicating diverse data points.

■■ 11/25/20 contains potential outliers as maximum values exceed expected range.
■ 11/25/20 has high variability indicating diverse data points.

■■ 11/26/20 contains potential outliers as maximum values exceed expected range.
■ 11/26/20 has high variability indicating diverse data points.

■■ 11/27/20 contains potential outliers as maximum values exceed expected range.
■ 11/27/20 has high variability indicating diverse data points.

■■ 11/28/20 contains potential outliers as maximum values exceed expected range.
■ 11/28/20 has high variability indicating diverse data points.

■■ 11/29/20 contains potential outliers as maximum values exceed expected range.
■ 11/29/20 has high variability indicating diverse data points.

■■ 11/30/20 contains potential outliers as maximum values exceed expected range.
■ 11/30/20 has high variability indicating diverse data points.

■■ 12/1/20 contains potential outliers as maximum values exceed expected range.
■ 12/1/20 has high variability indicating diverse data points.

■■ 12/2/20 contains potential outliers as maximum values exceed expected range.
■ 12/2/20 has high variability indicating diverse data points.

■■ 12/3/20 contains potential outliers as maximum values exceed expected range.
■ 12/3/20 has high variability indicating diverse data points.

■■ 12/4/20 contains potential outliers as maximum values exceed expected range.
■ 12/4/20 has high variability indicating diverse data points.

■■ 12/5/20 contains potential outliers as maximum values exceed expected range.
■ 12/5/20 has high variability indicating diverse data points.

■■ 12/6/20 contains potential outliers as maximum values exceed expected range.
■ 12/6/20 has high variability indicating diverse data points.

■■ 12/7/20 contains potential outliers as maximum values exceed expected range.
■ 12/7/20 has high variability indicating diverse data points.

■■ 12/8/20 contains potential outliers as maximum values exceed expected range.
■ 12/8/20 has high variability indicating diverse data points.

■■ 12/9/20 contains potential outliers as maximum values exceed expected range.
■ 12/9/20 has high variability indicating diverse data points.

■■ 12/10/20 contains potential outliers as maximum values exceed expected range.
■ 12/10/20 has high variability indicating diverse data points.

■■ 12/11/20 contains potential outliers as maximum values exceed expected range.
■ 12/11/20 has high variability indicating diverse data points.

Conclusion

Conclusion: The dataset reveals important statistical patterns and variability across features. Certain attributes demonstrate stability, while others indicate potential anomalies or wide dispersion. These insights can be leveraged for predictive modeling, trend analysis, and data-driven decision-making.
